(a) Xb15: shot-level calibration
95% belt (synthetic)
BEQS data
95% interval for f
fitted slope β (rad/s per ms)
quasi-static fraction f of the truth
(b) Xb30: shot-level calibration
95% belt (synthetic)
BEQS data
95% interval for f
fitted slope β (rad/s per ms)
quasi-static fraction f of the truth
(c) J drift under shot-level noise
learned nearest-neighbour J (rad/s)
BEQS data
truth
synthetic, f = 0
synthetic, f = 1
